Profile Statement

I am a computer science and software engineering undergraduate with a keen interest in technology and web development. My greatest strength is my passion for programming, an obsession which had not only helped me spot new trends and use them innovatively to develop my university level software projects, but also it helps me concentrate and work attentively for long hours on software project without lacking interest. My passion for IT Industry as a whole motivated me to undertake job roles such as IT Assistant, monthly magazine designer and programming lecturer. My interest for this field helped me work with a lot of involvement and be successful in each role I under took. Now I am seeking to associate and contribute my client coordinator experience, my web development and other technical skills to the team at Bizycorp while also gaining further experience and enhancing the company's productivity and reputation. I am interested in leveraging my skills for the Associate Client Service Position.
